Sri Krishna Janmastami

*“Vasudheva sutham devam kamsa charunamardhanam
devaki paramanandham krishnam vandhe jagathgurum!”*

Sri Krishna Janmastami is celebrated on the eighth day and it marks the birth of Lord Krishna, an avatar of Lord Vishnu.

Krishnashtami was celebrated with great zeal and pomp by the children of all the classes in Spring Board Academy, Chittoor. Especially, pre-primary children dressed in as Krishna’s and Gopikas, and other colourful outfits. They wore peacock feather head-gears and decorated flutes.

The celebrations began with puja to lord Krishna. Children sang songs, performed on songs and gave speeches. They have also enjoyed breaking the pot (Utti). At the end of the celebration, children were given flutes as take away.

Two Cats And The Monkey

Once there were two cats walking friendly in the city. They saw a *roti* on their way. Both started to quarrel saying that, "I saw the *roti* first". There was a monkey watching all these. It was on the tree, eating a banana. The monkey came down from the tree and said, "I'll settle your dispute". It took the *roti*, divided into two halves and threw them on both the sides. The cats ate the half *roti* and filled their stomach.

Causes and effects of sea wastage

Dumping sewage in the ocean has always been considered the cheapest and the easiest way of disposing of wastes. As we know that nearly 71% of the earth is covered by water. It is a source of livelihood not only for humans but also for the aquatic animals that live in oceans and seas. As factories and industries are dumping all the waste materials into near by lakes, seas and oceans, the water is getting polluted. Also, the oxygen levels in the water is decreasing. Drinking such water is also causing various water borne diseases.

If we dump wastage into the seas where does the fresh water come from?
We only get polluted water.

Though we are getting purified or mineral water now-a-days, it contains some micro organisms which will harm us very effectively.
