Guru Purnima

Guru Purnima is celebrated on the full moon day (Purnima) in the Hindu month Ashadha. This day has immense importance in the Indian culture as a guru paves a way for his disciples to live a fruitful life. An individual lives a happy and prosperous life because of the skills learnt from his guru.

To let the students understand the importance of guru in their life, this festival was celebrated in our campus. On this auspicious day, the campus was decorated with flowers. All the students have offered their love and respect towards their teachers and took their blessings.

All the students were excited and curious regarding the visit. Students were happy to distribute clothes and food to the children living in the orphanage. Clay Act

Every child needs experiences that match his or her developmental level. Manipulating a piece of clay develops the child's large and small muscles. Clay play fosters eye-hand coordination.

Soft clay is receptive and responsive to all kinds of emotional expression. Clay is so fascinating that few children worked for long periods than others. Children made vegetables, fruits and different shapes out of clay.
